+94 76 8392163

Nugegoda, Sri Lanka

Highly motivated computer science student with a strong passion for exploring new technologies and software development practices. Experienced in writing efficient code, debugging, and optimizing software performance. Committed to delivering high-quality work and contributing to innovative projects.

### EDUCATION

#### Bachelor of Science (B.Sc.) in Physical Sciences (Undergraduate)

Expected Graduation : 2025

University of Sri Jayewardenepura, Faculty of Applied Sciences, Sri Lanka.

**Major Areas : Computer Science, Physics, Mathematics**

### KEY PROJECTS

#### GorillaBar Website & Branding (2024)

*Tools:* Figma, Playground AI, Shopify, Adobe Creative Suite

- Led UI/UX design for a vibrant website and branding for a US-based vape bar, incorporating a custom AI-generated gorilla mascot for seamless brand identity, enhancing visual appeal and customer engagement.
- Gained the opportunity to develop the website on Shopify and design packaging for the vape products.

#### FollowUp.com Website Design (2024)

*Tools:* Figma, Dropfunnels

- Designed and oversaw the development of the homepage for a real estate CRM on DropFunnels, focusing on automation, lead scoring, and seamless integrations, while ensuring adherence to brand guidelines.

### TECHNICAL SKILLS

**Tools & Technologies :** Figma, HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, React, C, C++, Java, Python

**Project Management :** Skilled in using JIRA and Trello to manage workflows efficiently.

### EXTRA-CURRICULAR ACTIVITIES & VOLUNTARY

**Marketing :** Head of Marketing at Aurora '24, Computer Science Conference and Competition organized by Computer Science Association of University of Sri Jayewardenepura.
